

# XPENG G6

Super intelligent driving coupe SUV

XPENG

# Curved flow, interpreting the beauty of technological evolution

## Technology flow aesthetics

Release the imagination of the future and open a new era of intelligent driving

Robot Face  
Family Design

Vector star ring  
interior design

Ultra-low wind resistance  
pulse curvature

Enjoy freedom anytime  
amidst the bustling city

#### Xmart OS 5.0 Intelligent In-car Operating System

Building a tailored intelligent cockpit with "Human-like" interactions

#### Full Scene Voice

Wake-up function | millisecond-level response | continuous dialogue | multi-command recognition | Voice command

#### Smart multi-scene cockpit

Users can highly customize functional scenes, bringing an exclusive scene experience

## Get back to yourself with an iced Americano

### WLTP comprehensive range up to 570km

Comprehensive energy consumption is as low as 17.5kwh/100km

### Charging 10 minutes extends the range by 230km (WLTP)

10%-80% energy replenishment in as fast as 20 minutes

### Direct charging peak power up to 280kW

87.5kWh large capacity ternary lithium battery  
Super long battery life, say goodbye to range anxiety

The data originate from XPENG Labs and is based on tested vehicles of specific XPENG models.  
Actual use may differ.

## Embark on an exciting, passionate yet stable driving experience

### 800V XPower electric drive system

**210kW**  
maximum power

**440N·m**  
peak torque

0-100km/h acceleration in **6.2** seconds

### Luxury independent suspension

- Front pure aluminum double wishbone suspension
- Rear five-link suspension
- Handle with ease with the help of front and rear stabilizer bars

## Natural scenery is the best movie to watch

### Extra-large space for comfort

- 2890mm ultra-long wheelbase, extensive space to stretch
- Cloud-like surround seats, the front row can be adjusted to nearly 180 degrees to lie flat
- The rear seat backrest is adjustable in 12 positions, with a maximum angle of 38.4 degrees

### Quiet and pleasant space

- 18 speakers in the vehicle | Private headrest audio for the driver
- Tuning by professional master

## Creating great times, and protecting your safety

# SAFETY

### 720° all-round safety protection

#### Front and rear unibody aluminum die-casting body

- The torsional stiffness of the vehicle is up to 41600N·m/deg

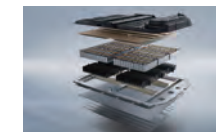

#### CIB battery-body integration

- 3-layer anti-collision structure
- The side pillar impact resistance can reach 80 tons

#### Full-dimensional battery safety protection

- Ten-dimensional structural safety design
- Passed more than 30 rigorous safety tests

# G6

## Urban scenario, color freedom

Arctic White

Silver Frost

Graphite Gray

Fiery Orange

Midnight Black

## Wheel hub style

20-inch sport wheel hubs

### Remark:

- The data displayed on the page is sourced from XPENG Labs and are for reference only. Actual use may differ.
- The function configuration mentioned on the screen is not standard for all series, and some functions need to be obtained with OTA for the entire vehicle. For specific information, please refer to the official product configuration table.
- The creative screen rendering is for display only and does not represent the standards for the UI and specific functions of the delivered vehicle. Please follow up with the official and sales stores of XPENG Motors for details, which will be subject to the final actual delivery of the vehicle.
- Please abide by traffic laws and drive carefully. XNGP intelligent assisted driving is only a driver assistance system. Please observe the road conditions in real time to avoid dangerous situations.
